**NOTE:** This is an excerpt taken from an illustration demonstrating how a participating life insurance policy works, based on certain assumptions. The figures shown reflect the Current Dividend Scale and values can change depending upon future Dividend Scales. The illustration is incomplete without all the pages attached, including the cover page. Guaranteed Values and Non-Guaranteed Values are referenced in the complete illustration, including an example which shows the effect of a 1% reduction in Dividends. It is not meant to be an estimate, prediction, or guarantee of future performance. This illustration is not a contract, an application, or an offer to provide life insurance. Neither is it part of any policy that may be issued. If a policy is applied for and issued, you should read it carefully upon delivery. It is the insurance contract that is binding, and not this illustration.
